SUMMARY

Highly motivated Full Stack Developer with a web development certificate from University of Arizona. Seeking a challenging full-time position in the web development industry. Looking to contribute and add value through technical knowledge learned through university studies and personal experience. Very passionate about Full Stack Development and ready to learn and improve daily while working individually or in a team setting. Strong communication, collaboration, and problem-solving skills. Ability to work in fast-paced environments while developing and exceeding expectations.

TECHNICAL SKILLS

Software Languages/Platforms: HTML, CSS, JavaScript, React, Tailwind, Next JS, GraphQL, GitHub, Express, Web APIs, Node JS, SQL, MERN, State, CS

PROJECTS

WYD | **Link to GitHub: https://github.com/RPAPE3/WYD/branches**
| **Link to Deployed Project: https://peaceful-reef-29677.herokuapp.com/**

- An app created to make event planning and coordination much easier for all events from small-group hangouts to professional, full-scale events.
- My responsibilities were front-end design/styling of Home Page and Login Page. Also contributed at back-end libraries.
- Technologies used: MongoDB, Express, React.JS, Node.JS, GraphQL, bcrypt, and bootstrap

Job Pursuit | **Link to GitHub: https://github.com/dvtipei/JobPursuit**
| **Link to Deployed Project: https://job-pursuit-tracking.herokuapp.com/login**

- This app was created to make it easier to keep track of job searching. Using a Kanban board, you can organize what stage of the job search you are at, this intends to make it easier for anyone searching for a job to be more organized.
- My responsibilities the home page and building the Kanban board including local storage.
- Technologies used: NodeJS, Object-Oriented Programming, Express, SQL, Object Mapping, Model-View-Controller, HTML, CSS and JavaScript

Belly Busters | Link to GitHub: https://github.com/Dalsakkaf/Project1-BarkingDog
| Link to Deployed Project: https://dalsakkaf.github.io/Project1-BarkingDog/

- Belly Busters was created as an interactive calendar in which a user can plan out their entire week of eating.
- My responsibility was the HTML structure of the file and most of the CSS styling.
- Technologies used: Flex properties & positioning, media queries, bootstrap styling, Server-side API, event listeners and local storage

RELEVANT EXPERIENCE

Mortgage Loan Officer   2017 – 2022
All Western Mortgage   Scottsdale, AZ

- Maintained pipeline of loans and closed them in timely manner
- Worked closely with business partners while ensuring excellence communication in order to help our mutual clients have a smooth and pleasant experience
- Worked in intense problem-solving situations while staying organized and prioritizing teamwork
- Managed sales, marketing, advertising all at the same time
- Closed many loans while guidelines and regulations were changing. Had to adapt to new changes very quickly

Key Accomplishments:
- Reached my goal of closing 4 loans per month on average
- Reached goal of closing enough loans to make a 6-figure income over 2 year period

ADDITIONAL EXPERIENCE

Teller/Lead Teller/Banker/Manager/Mortgage Consultant   2013 – 2017
Wells Fargo Bank   Phoenix, AZ

- Worked closely with team members to satisfy needs of clients
- Oversaw organized tasks to ensure compliance within guidelines
- Managed a small group of tellers by coaching and improving their knowledge and skills
- Part of sales team, working with clientele to ensure mortgage financing

Key Accomplishments:
- Multiple employee of the month awards
- Within 4 years was promoted 5 different times
